

Germinate

Aim: Grow a Plant from a Seed

[Google Images](#) [seed germination clipart](#)

Upload as a
Backdrop and
Sprite.

Modify Backdrop
by removing
plants.

Use vector art to create the seven plant sprites.

Duplicate costume 7 times and remove all plants except one from each costume.

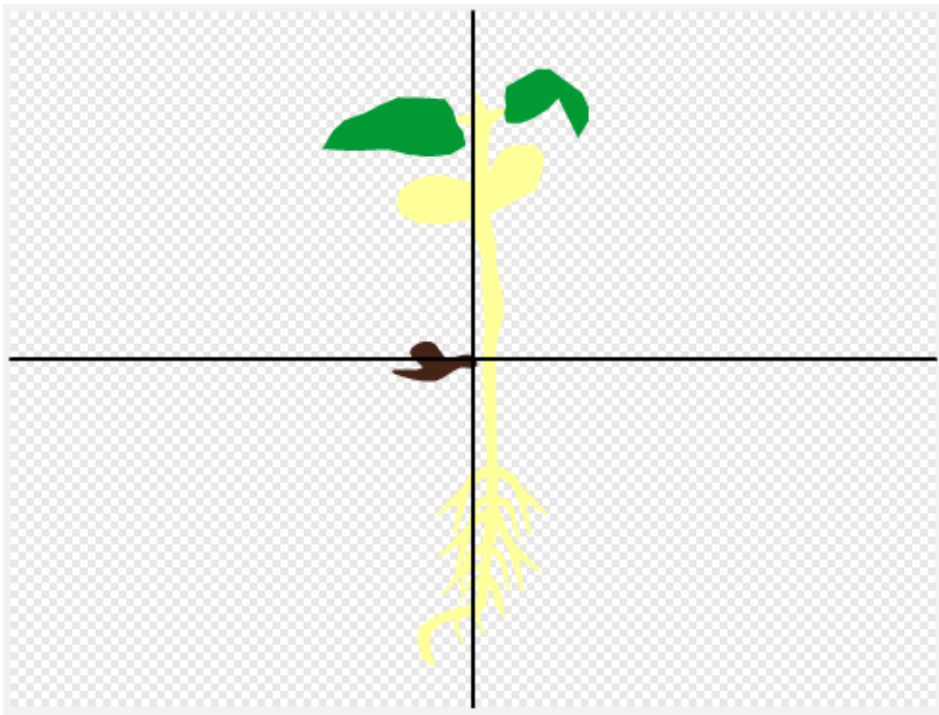

Make sure each costume stays in the original spot.

```
when clicked
hide
go to x: 0 y: 0
switch costume to seed1
show
repeat 6
  wait 1 secs
  create clone of myself
  next costume
```

Save and Test

Create two versions and use left and right arrows.
 Duplicate the plant sprite and centre each costume.

```

when green flag clicked
  hide

when left arrow key pressed
  hide

when right arrow key pressed
  hide
  go to x: 0 y: 0
  switch costume to seed1
  show
  repeat 6
    repeat 10
      wait 0.1 secs
      change ghost effect by 10
    next costume
    repeat 10
      wait 0.1 secs
      change ghost effect by -10
  
```

Modify the first plant sprite scripts

```

when green flag clicked
  hide

when right arrow key pressed
  hide

when left arrow key pressed
  hide
  go to x: 0 y: 0
  switch costume to seed1
  show
  repeat 6
    wait 1 secs
    create clone of myself
    next costume
  
```
